Dear Mr. Mills:

Reviewing your Commission's decision that we, Orbin and Margie A. Brock should pay a sum of money for a water line to our property-

We received a letter from Denver Burton stating that we were to pay Two thousand four hundred thirty three dollars (\$2,433.00) for water. We complied by sending a check for this amount as you had suggested. Later we received a letter from Jerry J. Cox, Attorney for the amount of ten thousand dollars (\$10,000.00) to satisfy property owners. We went to our Governor Brereton Jones who instructed us to not pay Burton or Cox any monies; that monies had been appropriated to construct all lines. We were one of the short lines. These short lines have been completed, but we were denied this completion.

The visit to the Governor was accompanied by Mary Helen Miller and David Whitehouse. They are witnesses to this conversation. We live a total of four hundred feet from one water line, and two hundred feet on the other side. There are a total of four ways to bring water to our house. This is a total of fourteen years we have been without water.

Is this not discrimination? I feel since President Clinton appropriated part of this money from his 2000 year, everyone be furnished water. We have no other alternative but to send all information to his office, and see if he instructed your office to see we never get a wataer line.

Sincerely,

Orbin Brock
